

CERTIFIED ENVIRONMENTAL, INC.

Industrial Hygiene and Occupational Health Services

The industrial hygienists and public health technicians at CEI have worked with a variety of industrial and commercial clients to assist them in meeting their industrial hygiene occupational health needs. We offer a full range of occupational health services to ensure employees are protected from workplace hazards and employers comply with all applicable OSHA laws and regulations, pertinent to their operation(s). Some of these different services include:

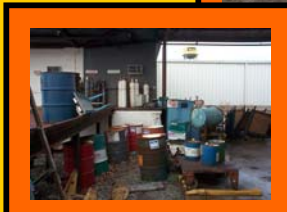

- Reviewing Workplace Hazards
- Chemical Exposure Monitoring
- Chemical Inventory Tracking
- Site Specific Employee Training
- Respirator Selection and Fit Testing
- Hazardous Noise Assessment
- Hearing Conservation Program Development
- Air Emissions Inventory
- Industrial Hygiene Compliance Audits

Environmental Management and Training Services

One of the most complex responsibilities for a business is environmental regulatory compliance. CEI's environmental compliance experts can help clients reduce their environmental risk and help ensure compliance with those applicable federal and state regulations. Some of these different services include:

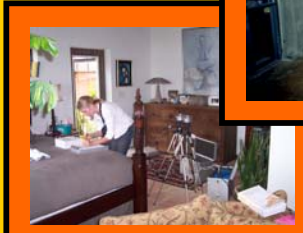

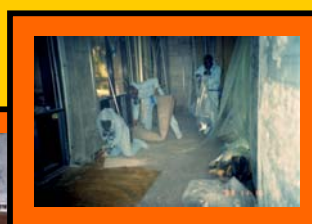

- Environmental Sampling
 - Water / Wastewater / Soil / Chemical Waste
- Phase I and Phase II Environmental Site Assessments
- Asbestos and Lead Based Paint Investigation & Abatement
- Hazardous Waste Management
- Environmental Compliance Audits
- Certified Employee Training

Indoor Air Quality (IAQ) Services

Indoor air quality (IAQ) often presents a major problem in commercial buildings and homes. CEI conducts a variety of IAQ surveys in an attempt to identify the source or cause of occupant complaints and work to correct the problem. Some of these different services include:

- Mold Inspection and Abatement Planning
- IAQ Investigations
- Sick Building Syndrome (SBS) and Building Related Illness (BRI) Investigations
- Air Monitoring Services
- IAQ and Mold Training
- Litigation Support
