

Certified Environmental, Inc. and JAS & Associates is an environmental, industrial hygiene and Quality Management System consulting firm, providing on-site project management, plan development, environmental and industrial hygiene and QMS services for our customers. CEI and JAS have extensive environmental and QMS experience working directly in the manufacturing industry and also as a lead QMS consultant and auditors for a wide variety of industrial clients. The knowledge and skill base that JAS offers enables customers to seamlessly integrate QMS into their operations, resulting in QMS certification. The staff at CEI and JAS has the experience and ability to help our customers efficiently and effectively achieve their desired goals.
